

SAIM SHARAF - CEng CMarEng MIMarEST AMRINA

Marine Engineer | Naval Architect | Project Engineer

• + 31684740929 • saimsharaf10037@gmail.com • [Linkedin](#) • [Portfolio Website](#) • Amsterdam, Netherlands

Work Authorization: Netherlands (Zoekjaar Residence Permit) — No Sponsorship Required

Summary

Naval Architect and Marine Engineer with over 5 years of experience across shipbuilding, production engineering and class-aligned maritime projects. Experienced in coordinating structural, fabrication and engineering teams to translate design packages into executable and buildable shipyard engineering delivery and project execution. Track record of technical reviews, drawing verification and multidisciplinary engineering coordination to ensure buildability and compliance with Class rules.

Education

University of Strathclyde

Glasgow, UK

Masters in Advanced Naval Architecture, Graduated with “Distinction”

Aug 2022 – Sep 2023

Pre-Masters in Engineering & Sciences, Grade: 82

Apr 2022 – Aug 2022

National University of Science & Technology (NUST)

Karachi, Pakistan

Bachelors of Mechanical Engineering, 3.47/4 CGPA

Jan 2016 – Aug 2020

Skills

Technical Skills

- Engineering Systems: Diesel Generators, RO Plants, HVAC, Pumps, Heat exchangers, Steering Gear, Stabilizers
- Survey: Hull & Coating Inspector, UTM Interpretation
- Compliance: Class Rules, IMO Conventions, Flag State Compliance, Technical Package Review, Shipyard Standards
- Design: AutoCAD, Rhino 3D, ShipX, MaxSurf, Spike2 ANSYS, Star CCM+, Technical Drawings Review
- Data & Analysis: Python, MATLAB, MS Office, SPSS

Managerial Skills

- Project & Operations: Inspection Planning, Maintenance Coordination (OEM/ Shipyard), Safety Drills, Dry Docking
- Safety & Compliance: Risk Based Inspections (RBI), HSE & PPEs Compliance, Lock-Out/ Tag-Out (LOTO) Procedures
- Reporting: Technical Reviews, Feasibility Studies, Root Cause Analysis (RCA), Survey Reports.
- Engineering Coordination: Design Interface, Technical Reviews, Buildability and multidisciplinary integration.

Experience

Bureau Veritas (BV), Pakistan

Surveyor Intern (Marine)

Nov 2025 – Jan 2026

- Participated in an **Annual Survey onboard a BV Class Oil Tanker**, supporting technical verification, documentation checks, inspection reporting and coordination with crew during surveys, under Senior Surveyor supervision.
- Reviewed **WPS** and **WPQR** documentation in line with AWS/ ISO standards, understanding yard/onboard implementation.
- Gained working knowledge of **IMO conventions (SOLAS, MARPOL, ICLL)** and **ISM/ISPS frameworks**, and interpreted **BV Class Rules** including steel grade and material acceptance requirements.

Fleet Maintenance Group (FMG), Pakistan Naval Dockyard (PND)

Deputy Manager Hull & Structure/ Ships Husbandry (SHB)

Oct 2023 – Oct 2025

- Conducted 30+ hull surveys using **NDT methods** in accordance with **Class rules**, delivered detailed technical reports; identified degradation patterns, supported structural assessments which reduced maintenance costs by 15%.
- Contributed towards global and local hull structural assessments, evaluating strength and stiffness of primary ship structures.
- Coordinated **50+ structural activities** across engineering teams, shipyard units and technical stakeholders.
- Delivered **20+ technical reviews** identifying structural issues and proposing buildable production solutions.

Hull Engineering – SMC (Submarine Construction), PND

Assistant Manager Hull Fabrication

Oct 2021 - Apr 2022

- Acted as **Project Officer** for AGOSTA-Class submarine hull works, coordinating fabrication teams, engineering drawings and **production planning for structural assemblies**.
- Ensured integration between structural design, fabrication and production constraints during fabrication of outer hull casing.
- Reviewed fabrication drawings and documentation ensuring alignment with structural design intent and **WPS** requirements.
- Coordinated with engineering teams, suppliers and **STM Turkey** to align drawings, fabrication scope and production schedules.

Sea Service, Pakistan Navy (PN)

Marine Engineering Watch Keeping Officer (WKO), BV Class OPV 1900

Sep 2020 - Oct 2021

- Operated and maintained **propulsion** and **auxiliary** systems and fuel/oil systems, while troubleshooting faults and supervising PMS routines and led defect rectification of systems, initiated corrective actions to ensure operational readiness.
- Maintained defect logs, audit compliance records and machinery reports, supervised engine room drills, damage control lockers and firefighting equipment to strengthen safety preparedness and crew proficiency.
- Led over 170 warranty claim closures in collaboration with **DAMEN Shipyard** Field Engineers, resolving significant claims onboard. Assisted in **SATs (Sea Acceptance Trials)** and machinery performance trials at Galati Shipyard, Romania.

Under Training (UT) Officer, F-22P Frigate

May - Aug 2018 & 2019

- Completed Sea Training as an ME branch officer, with hands-on experience in operating, maintaining and troubleshooting propulsion and auxiliary systems, while assisting routine repairs workshop supervision.

Projects

Biofouling Quantification on Tidal Turbine, University of Strathclyde, Glasgow

Jan - Apr 2023

- Investigated biofouling effects through ANSYS simulations for Turbine Blade profile, assessing performance loss.

European Union's GATERS (Gate Rudders), Kelvin Hydrodynamics Lab, Glasgow

May - Sep 2023

- Conducted resistance and Self-Propulsion tests on a model hull form, to evaluate Gate Rudders as potential Energy Saving Device (ESD) against potential retrofit equipment to support IMO 2050 decarbonization goal and sustainable shipping.

Watertight Integrity Feasibility Study, MABs (Marine Assault Boats)

Dec 2023 – Jan 2024

- Analyzed WT Integrity risks and proposed structural design modifications for compliant construction.

High Galley Temperature Issue, Ferry Boat

Mar 2024

- Diagnosed ventilation inefficiencies and proposed ISO aligned upgrades to improve airflow, comfort and machinery safety.

Root Cause Analysis (RCA), Oil Tanker

Apr 2024

- Investigated causes of excessive steel renewals through UT thickness checks and weld condition assessment, identifying fabrication, coating and corrosion issues contributing to structural degradation.

Slamming/ Whipping, Offshore Patrol Vessel (OPV)

Aug 2024

- Collected motion and Sea State data, to assess structural response vis-à-vis slamming for varying headings and speeds.

Breach in Watertight Integrity, F-22P Class Frigate

Jan 2025

- Assessed gooseneck vent design deficiencies and proposed structural improvements to restore WT integrity.

Certifications

Professional Certifications

- Hull Inspector**
- Vibrational Analysis (VA) Level II**
- NDT- UT, MT & DPT Level II**
- STCW (Standards for Seafarers)
- Google Project Management**
- Basic Management Course (BMC)
- Junior Officer Staff Duty Course (JOSDC)
- McKinsey Forward Program

Technical Course Certifications

- FEM - Linear, Nonlinear Analysis & Post-Processing
- Rhino 3D Modelling
- Python for Data Science, AI & Development
- Advanced Firefighting & CBRNDC

Additional Information

Awards/ Volunteer Activities

- Pakistan Joint Branch (PJB) IMarEST & RINA** to promote awareness and strengthen maritime sector in Pakistan.
- TLC (Technical Leadership Committee) IMarEST** Member.
- Military Medals** (10 Years' Service Medal, Youm-e-Marka-e-Haq, Tamgha-e-Azam).
- Runner-Up '*International Nautical Competition*' at Deniz Harp Okulu **Turkish Naval Academy**, Istanbul.
- Swimming Team Captain** at Pakistan Naval Academy (PNA).
- Marine Robotics Society at Strathclyde University, Glasgow.
- ECSS (Education and Community Services Society)
